BOARD PRESIDENT'S REPORT

Good evening everyone, welcome to the February Board of Education meeting. We are nearly three quarters of the way through the school year. I would like to wish all of our athletic teams success as State tournament time upon us. And congratulations to the Music Express students and band students as I have received numerous emails and comments from people not associated with our District about how wonderful their programs are. Also, to all of the young people that represent our District in various activities, I am constantly told what courteous and polite students they are, you should be proud of yourselves.

COMMITTEE REPORTS:

PRESENTATION

Mrs. Jody Saxton gave the board a presentation focused on a general overview of Title I. This included creating an understanding of what some of the more commonly used the federal “acronyms” stand for such as “LEA, UGG, ESSA, IDEA, OIP, OLi-4, CCIP, NCLB, etc. Mr. Saxton felt it was important for the board members to get some background on why the district receives Title I grants and that it was linked to the percentage of economically disadvantaged families we have and must be used to provide all children with an opportunity to receive a high quality education and close achievement gaps, particularly those most at risk of not meeting state standards.

Mrs. Saxton then outlined the steps the district must follow in order to be permitted to begin spending the grant. She gave an overview of how the district must conduct a comprehensive needs assessment, create a plan and then allocate funds through the CCIP. The presentation included examples of how the district currently allocates Title I funds while stressing these are resources, personnel and programs that we would not be able to provide to students, families and staff without getting the federal grant.

Shari Bailey provided the Board of Education with a technology and EMIS update for the 17-19 school year. She demonstrated a new product called Peardeck. This tool allows a user/teacher to share a presentation with students. The students can answer questions and provide live data that the teacher can use to guide instruction. She provided an update on the status of all of technological systems in the district including new projects completed this school year. Statistics from Box Cast, a product that allows for live streaming of events, were presented as well. Finally, Shari discussed some projects planned for the 18-19 school year.

RECOGNITIONS/COMMENDATIONS

SUPERINTENDENT'S REPORT

Mr. Olszewski led off with some numbers on new/withdrawn students, meals served and employees. He then went into his report.

Thank you, Mr. President.

I want to first begin by recognizing Mrs. June Geraci and thank her for her dedicated service to the Garfield Heights City Schools and the community. You led with the students in mind, and as Superintendent, that is the most important thing we do in this school district. Put students first. With all of your time, and your husband's time...in every sense of the meaning, you are a TRUE BULLDOG. Thank you for your service.

I want to next congratulate the Music Express Team for their recent Grand Champion finish at the Walsh Jesuit Great Lakes Invitational. This marks the second consecutive year that our Music Express team has won this tournament, and hopefully you all saw the picture on the front page of the Neighborhood News last week. Thank you to all of the participants for their hard work, practice and determination. It pays off when accomplishments such as these are earned. Special thank you to Mr. Pernod and Ms. Carey as well.

The Winter Family Fun Night took place just this past Friday as well, with more than 200 participants in attendance who came together in the name of Bulldog Pride. Students played games, enjoyed food with their families and had a great night. All proceeds went to benefit Citizens for Garfield Heights. Thanks to all involved.

Principals have begun to communicate with families the fact that testing season is fast approaching, and I would like to reiterate the importance of what parents can do to help optimize their children's performance on the tests:

- Stay positive and encouraging. By praising your child for his or her positive accomplishments, self-esteem increases, and consequently the likelihood that he or she will perform well on tests.
- Communicate with your child's teachers. Parents who pro-actively discuss their children's progress remain informed, and can learn about suggested activities that he or she can perform at home.
- Ensure that your child attends school regularly. Since tests reflect a child's overall achievement, the more exposure he or she has to the learning process, the more likely his or her test scores will improve.

- Provide a quiet learning environment for school work at home. When studying at home in a quiet, comfortable place is provided, overall learning performance can be achieved.
- Provide a variety of new reading materials at home. Books and magazines provide the opportunity for your student to learn new words that might appear on tests.
- Help your child to minimize test anxiety. Encourage your child not to worry too much about the test. Ensure your child receives a good night of sleep the night before a test. Provide a healthy breakfast on test day, and make sure to praise your student for their work and effort.

These tips will be communicated to parents as well, in our forthcoming email correspondence and posted online.

Finally, our annual Little Bulldog Kindergarten registration event will take place on Wednesday, March 14, 2018 from 4:30 to 6 p.m. at the HS. Anyone who has a child that is 5 years old on or before Sept. 30, 2018 should plan to attend. More information will be coming on this event as well. This concludes my report.

A RESOLUTION COMMENDING THE DISTINGUISHED PUBLIC SERVICE OF JUNE A. GERACI

Whereas, June A. Geraci, has recently resigned her position as member of the Garfield Heights Board of Education after a long tenure serving the community in this capacity which spans more than 20 years of service, and

Whereas, June's service as a member of the Board of Education began upon the passing away of her late husband, John, a long-time and beloved member of the Garfield Heights Board of Education in his own right and desired to carry on the passion that they, along with their two daughters who are both alumni of the GHCS, had for the district and the community, and

Whereas, June earned many recognitions during her time on the Garfield Heights Board of Education, including serving as Board President, Board Vice-President, the district's representative to the Cuyahoga Valley Career Center and the National School Board Association and several occasions, graduating from the Ohio School Board Members Academy of Leadership, participating in the campaign to pass the bond issue which built the high school, and

Whereas, notwithstanding these personal accomplishments, June always elevated the importance of providing students with the very best education and enjoyed watching them succeed academically in co-curricular endeavors, including her most cherished memories of students participating at board meetings, athletic competitions, reading together with them in classrooms, Family Fun Nights, Commencement, the annual Roses for Teachers event and watching our students represent the district on Academic Challenge, and

Whereas, June always extended gratitude to the dedicated staff of the Garfield Heights City Schools which helped to earn the designation of Best Community School Districts, and thoroughly valued the work she did with her fellow board members and past superintendents and administrators over the years, and

Whereas, June's devotion to the Garfield Heights Board of Education was coupled with the work she did in serving as secretary at the Garfield Heights Fire Department for many years, and

Whereas, through all of these aforementioned milestones, accolades and treasured moments in the long and noteworthy public service career of June A. Geraci as a member of the Garfield Heights Board of Education, she has clearly demonstrated leadership, compassion, teamwork and an unwavering commitment and love for the Garfield Heights City Schools, so

NOW THEREFORE BE RESOLVED, that the Garfield Heights Board of Education wishes to express its highest commendation along with its deepest gratitude to June A. Geraci, for her long-time service to the Garfield Heights City Schools as a distinguished member of the Board of Education.

NONDISCRIMINATION ON THE BASIS OF SEX/
SEXUAL HARASSMENT

The U.S. Department of Education has published regulations for implementing Title IX of the Education Amendments of 1972, which prohibits sex discrimination in federally assisted education programs.

Title IX states, in part: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any education program or activity receiving federal financial assistance.”

The Board ensures compliance with Title IX of the Education Amendments of 1972, Title VI of the Civil Rights Act of 1964 and the regulations promulgated through the U.S. Department of Education.

All persons associated with the District, including, but not limited to, the Board, administration, staff, students, and third parties are expected to conduct themselves at all times so as to provide an atmosphere free from sex discrimination and sexual harassment. Sex discrimination and sexual harassment, whether verbal or nonverbal, occurring inside or outside of District buildings, on other District-owned property or at school-sponsored social functions/activities, is illegal and unacceptable and will not be tolerated. The District may have an obligation to investigate and/or respond to sexual harassment occurring off school grounds, when the harassment creates a hostile environment within the school setting. **Sexual harassment is strictly prohibited by Any person who engages in sexual harassment while acting as a member of the school community is in violation of this policy.**

The District takes measures to eliminate harassment, prevent its recurrence and **remedy** address its effects, and will implement interim measures as deemed necessary.

Definition of Sexual Harassment: Unwelcome sexual advances, requests for sexual favors or other verbal, nonverbal, or physical conduct of a sexual nature may constitute sexual harassment when:

1. submission to such conduct is made, either explicitly or implicitly, a term or condition of a person’s employment or status in a class, educational program or activity;
2. submission to, or rejection of, such conduct by an individual is used as the basis for employment or education decisions affecting such individual or

3. such conduct **is sufficiently severe, persistent, or pervasive and** has the purpose or effect of unreasonably interfering with an individual's work or educational performance by creating an intimidating, hostile or **abusive** offensive environment, or by interfering with one's ability to participate in or benefit from a class or educational program or activity.

Sexual violence is a form of sexual harassment and refers to physical sexual acts perpetrated against a person's will, or where a person is incapable of giving consent. Examples of sexual violence include but are not limited to, rape, sexual assault, sexual battery, sexual abuse, and sexual coercion.

Sexual harassment includes gender-based harassment, which refers to unwelcome conduct based on an individual's actual or perceived sex, (including harassment based on gender identity and nonconformity with sex stereotypes), and not necessarily involving conduct of a sexual nature.

Examples of sexual harassment-type conduct may include, but are not limited to, unwanted sexual advances; demands for sexual favors in exchange for favorable treatment or continued employment; grooming; repeated sexual jokes, flirtations, advances or propositions; verbal abuse of a sexual nature; graphic verbal commentary relating to an individual's body, sexual prowess or sexual deficiencies; coerced sexual activities; any unwanted physical contact; sexually suggestive or obscene comments or gestures; or displays in the workplace of sexually suggestive or obscene objects or pictures. Whether any act or comment constitutes sexual harassment-type conduct is often dependent on the individual recipient.

All of these types of harassment are considered forms of sex discrimination prohibited by Title IX.

The Board has developed informal and formal discrimination and harassment complaint procedures. The procedures provide for **a prompt and equitable** impartial investigation free from conflicts of interest, **and resolution of complaints of sex discrimination, including sexual misconduct.** The Board also has identified disciplinary measures that may be imposed upon the offender. Nothing in this policy or procedure prevents an individual from pursuing action through State and/or Federal law, contacting law enforcement, or from filing a complaint with the United States Department of Education, Office of Civil Rights, the Ohio Civil Rights Commission or the Equal Employment Opportunity Commission.

The Board designates the following individual to serve as the District's Title IX Coordinator:

Title: Director of Human Resources
Address: 5640 Briarcliff Drive, Garfield Heights, OH 44125
Phone number: 216-475-8100
Email: cghanke@ghbulldogs.org

The Title IX Coordinator serves as the grievance officer and coordinates the District's efforts to comply with and carry out responsibilities under Title IX, including any complaint under Title IX. He/She is vested with the authority and responsibility for investigating all sexual harassment complaints in accordance with the procedures set forth in the accompanying regulation and staff and student handbooks. **Any investigatory responsibilities of the Title IX Coordinator may be delegated to a designee trained in Title IX compliance and procedures.**

Confidentiality/Retaliation

Sexual harassment matters, including the identity of both the **reporting** charging party and the **responding party** accused, are kept confidential to the extent possible, consistent with the Board's legal obligations to investigate. Although discipline may be imposed against the **responding party** accused upon a finding of guilt, the District prohibits retaliation for an individual's participation in, and/or initiation of a sex discrimination/sexual harassment complaint investigation, including instances where the complaint is not substantiated. The District takes reasonable steps to prevent retaliation and takes strong responsive action if retaliation occurs.

NONDISCRIMINATION ON THE BASIS OF SEX/SEXUAL HARASSMENT
GRIEVANCE PROCEDURES

The Board has created informal and formal discrimination and harassment grievance procedures, providing for a prompt and **equitable** ~~impartial~~ investigation **and resolution of complaints of sex discrimination, including sexual misconduct.** ~~free of conflicts of interest.~~ All students and District employees are **encouraged** ~~required~~ to fully cooperate when asked to participate in an investigation.

Members of the school community and third parties are encouraged to promptly report incidents of sex discrimination or sexual harassment. Complaints may be filed with any District employee, or directly with the Title IX Coordinator. District employees are required to report these incidents to the Title IX Coordinator upon becoming aware of an incident, and failure to do so may result in disciplinary action.

Complaints of sex discrimination or sexual harassment must be filed **as soon as possible after** ~~within 180 calendar days of the alleged incident,~~ as delays in filing complaints can make it difficult to investigate. Both the informal and formal grievance procedures are completed **in a timely manner** ~~within 60 days of the date the incident was reported to the Title IX Coordinator,~~ unless extenuating circumstances exist. Periodic updates are **provided to the parties** ~~made~~ as appropriate during the investigation.

The Title IX Coordinator determines whether or not, by “a preponderance of the evidence,” the alleged victim’s allegations are true. “A preponderance of the evidence” means that evidence must show the alleged discrimination/sexual harassment was more likely than not to have occurred.

Pending the final outcome of an informal or formal investigation, the District institutes interim measures to protect the **reporting and/or responding parties** ~~alleged victim~~ and informs him/her of available support services. Interim measures may include, but are not limited to: a District-enforced no contact order, **modification of work or class** ~~schedules changes,~~ academic modifications ~~for the alleged victim,~~ and/or school counseling, ~~for the alleged victim.~~ These measures should ensure **that both parties** ~~the alleged victim~~ continues to have equal access to all ~~education district~~ programs and activities and the safety of all students **parties** is protected.

If **the Title IX Coordinator or designee** ~~is any of the named officials~~ are the **responding party** ~~accused or are the reporting party~~ ~~alleged victim,~~ the Board designates an alternate investigator and retains final decision-making authority.

All matters involving sexual harassment complaints remain confidential to the extent possible.

Informal Procedure for Addressing Complaints

An informal grievance procedure can be used when the Title IX Coordinator deems it appropriate and/or when the parties involved (**reporting party** ~~alleged victim~~ and **responding party** ~~accused~~) agree that an informal process is appropriate and sufficient. The informal process is not used when the alleged discrimination or harassment may constitute sexual violence or any other criminal act.

The Title IX Coordinator gathers enough information during the informal process to understand and resolve the complaint. The Title IX Coordinator proposes an informal solution based on this fact-gathering process, which may include, but not be limited to: requiring the **responding party** ~~accused~~ to undergo training on harassment/discrimination, requiring all students and staff to undergo such training, and instituting protective mechanisms for the **reporting party**. ~~alleged victim.~~

~~Either party has the right to terminate the informal procedure at any time and pursue a remedy under the formal grievance procedure.~~

Formal Procedure for Addressing Complaints

While the formal grievance procedure may serve as the first step toward the resolution of a charge of sex discrimination or sexual harassment, it also is available when the informal procedure fails to resolve the complaint.

Through the formal grievance procedure, the Title IX Coordinator attempts to resolve the complaint in the following way:

1. The Title IX Coordinator promptly ~~confers~~ **communicates** with the ~~charging party/alleged victim~~ **reporting party** in order to obtain a clear understanding of that party's statement of the alleged facts. The statement is put in writing by the Title IX Coordinator and signed by the **reporting party, where possible, charging party/alleged victim** as a testament to the statement's accuracy.
2. The Title IX Coordinator ~~meets~~ **communicates** with the ~~charged~~ **responding** party in order to obtain his/her response to the complaint. The response is put in writing by the Title IX Coordinator and signed by the ~~charged~~ **responding party, where possible**, as a testament to the statement's accuracy.
3. The Title IX Coordinator ~~holds as many meetings~~ **communicates** with the parties and witnesses (if any) as are necessary to gather **all of the relevant** facts. The dates of **any** meetings and the facts gathered are all put in writing. The investigation is ~~adequate,~~ **reliable, impartial and prompt and equitable**, and allows both parties an equal opportunity to present witnesses and other evidence.

4. At the conclusion of the investigation, the Title IX Coordinator prepares a written report summarizing: the evidence gathered during the investigation and whether the allegations were substantiated; whether any Board policies or student or employee codes of conduct were violated; any recommendations for corrective action. The investigation report indicates if any measures must be instituted to protect the ~~alleged-victim~~ **reporting party**. Such measures may include, but are not limited to extending any interim measures taken during the investigation. The report also informs the ~~alleged-victim~~ **reporting party** of available support services, which at a minimum includes offering school counseling services if the ~~alleged-victim~~ **reporting party** is a student.

Notice of Outcome

Both the ~~alleged-victim~~ **reporting party** and the ~~accused~~ **responding party** are provided written notice of the outcome of the complaint.

If either party disagrees with the decision of the Title IX Coordinator, he/she may appeal to the Superintendent. After reviewing the record made by the Title IX Coordinator, the Superintendent may attempt to gather further evidence necessary to decide the case and to determine appropriate action to be taken. The decision of the Superintendent is final.

Disciplinary Action

Any disciplinary action is carried out in accordance with Board policies, student and employee codes of conduct, State and Federal law, and, when applicable, the negotiated agreement. When recommending discipline, the Title IX Coordinator considers the totality of the circumstances involved, including the ages and maturity levels of those involved. The Title IX Coordinator and the Superintendent determine if a recommendation for expulsion for an ~~an~~ **responding accused** student or discharge for an ~~an~~ **responding accused** employee should be made. If this recommendation is made and a hearing is required, the hearing shall be held in accordance with Board policy, State law and/or the negotiated agreement. Both parties shall have an equal right to attend the hearing, have a representative and parent (if student) present, present evidence, and question witnesses.

(Approval date:)

NOTE: Federal law requires the investigation of all complaints of sexual harassment. Boards of education must have a procedure by which complaints may be reported and investigated. This procedure is provided to assist boards in meeting the requirements of law. Keep the procedural language in its entirety, edit to meet the district's needs or replace with the district's complaint procedures.

STUDENT TRANSPORTATION SERVICES

The transportation policies of the Board are aimed at providing a safe, efficient and economical method of getting students to and from school. It is the desire of the Board that the transportation schedule serves the best interests of all students and the District. The Board provides transportation as required by State law.

In addition to that required by law, the Board may provide transportation to all elementary and secondary school students to the extent determined by the administration and approved by the Board. All regulations governing student transportation are in accordance with the Ohio School Bus Operation Regulations issued by the Ohio Department of Education, the Ohio State Highway Patrol and the Ohio Department of Public Safety and as required by State law.

The District will transport as many students as practical on school buses that meet all the state requirements for pupil transportation. In some cases, students may be transported by other means as defined by State law.

Fees may not be charged to students for routine transportation or for non-routine transportation for educational field trips provided during the school day.

The Board annually approves designated bus stops and time schedules as presented by the Superintendent/designee, and grants authority to the transportation supervisor/designee to adjust stops during the school year.

The transportation program is under the direction of the transportation supervisor who is responsible to the Superintendent. The Board directs the Superintendent/designee to develop District-level policies and procedures for the safe and efficient operation of student transportation services.

Transportation to Community, STEM, **STEAM** and Private Schools

The District will provide transportation for eligible students who attend community, STEM, **STEAM**, and private schools in compliance with State law when practical.

When transportation for any student is not practical by any means approved by State law, the Board may resolve to declare transportation impractical and offer the student payment in lieu of transportation.

NOTE: In all city, local and exempted village districts, the board provides transportation for resident elementary students, kindergarten through grade eight, who live more than two miles from the school of attendance and for all students with physical or mental disabilities that make walking impossible or unsafe. The transporting of high school students is optional. Students attending a joint vocational school must be provided with transportation from the high school to the JVSD. Buses used to transport students may be operated by the district, other districts or in some cases private contractors that meet the requirements for the state for pupil transportation. The approved alternative methods for transporting students are outlined in Ohio Administrative Code 3301-83-19.

*The board must provide transportation to nonpublic, community, and **STEM and STEAM** school students on the same basis as it is provided to resident students attending district schools.*

The board is not required to transport nonpublic or community school students whose travel is more than 30 minutes to school from their district school of assignment. These students are not eligible for any services, including payment in lieu of transportation in accordance with State law.

State law permits districts, upon request, to transport students in grades K-12 who do not reside in the district to a nonpublic school the student attends if the:

- 1. student's resident district is not required to transport the student because the travel time is more than 30 minutes and*
- 2. parent agrees to reimburse the nonresident district for the costs of transporting the student that exceed the amount the district receives from the state.*

If the nonresident district declines the request, it is required to state its reasons in writing.

It is advisable for a board to delegate to the superintendent/designee the responsibility of developing district-level policies and procedures for the daily transportation procedure. Many laws will apply in these areas.

ENGLISH LEARNERS

The Board recognizes the need to provide equal educational opportunities for all students in the District. Therefore, if the inability to speak and understand the English language excludes a student from effective participation in the educational programs offered by the District, the District shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. Students in a language minority or who are English learners are identified, assessed and provided appropriate services.

The Board directs the administration to develop and implement instruction programs that:

1. appropriately identify language minority students;
2. provide the appropriate instruction to English learner students to assist them in gaining English language proficiency, as well as content knowledge, in reading/language arts and mathematics and
3. annually assess the English proficiency of students and monitor their progress in order to determine their readiness for the mainstream classroom environment.

The District requires all English learner students to be tested. Alternative assessments may be required. Students must make yearly gains toward closing the achievement gap as defined by the State Board of Education performance targets.

~~English learner students who have been enrolled in U.S. schools for less than one full year may be exempt from one administration of the reading/language arts assessment administered to their grade levels. However, students who choose to take these tests are permitted to do so. (Assessments in math, science and social studies are not exempt.)~~

The District provides parents with notice of and information regarding the instructional program as required by law. Parent and family involvement is encouraged and parents are regularly apprised of their child's progress.

COCURRICULAR AND EXTRACURRICULAR ACTIVITIES

The purpose of education is to develop the whole person of the student. For this reason an educational program must embody, as an essential element, activities that involve students beyond the classroom and foster the values that result from interaction and united effort. Such activities form a logical extension of the required and general curriculum and the elective or special curriculum.

The Board has established the criteria for cocurricular and extracurricular activities consistent with its philosophy of, and goals for, education. All student activity programs must:

1. have educational value for students;
2. be in balance with other curricular offerings in the schools and be supportive of, and never in competition with, the academic program and
3. be managed in a professional manner.

The Board may require that students pay reasonable fees to participate in cocurricular and extracurricular activities.

The following guidelines govern the student activity programs.

1. Student activities are those school-sponsored activities that are voluntarily engaged in by students, have the approval of the school administration and do not carry credit toward promotion or graduation.
2. Each school, under the direction of the principal and professional staff, has a student activity program designed to stimulate student growth and development by supplementing and enriching the curricular activities. All receipts and expenditures are accounted for through the activity account.
3. Each activity should be designed to contribute directly to the educational, civic, social and ethical development of the students involved.
4. The student activity program receives the same attention in terms of philosophy, objectives, social setting, organization and evaluation as that given the regular school curriculum.
5. Each school develops written guidelines and procedures regulating the creation, organization, administration and dissolution of student activity programs. The Superintendent reports annually to the Board the general purposes, plans and financial status of the cocurricular and extracurricular programs of the District.

6. The expenses involved in participating in any school activity and in the total program for a school year should be set so that a majority of the students may participate without financial strain. Special consideration may be given in cases in which the expense of participating would result in exclusion.
7. Activities must be open to all students, regardless of race, color, national origin, ancestry, citizenship status, religion, sex, economic status, age, disability or military status.
8. Activities must not place undue burdens upon students, teachers or schools.
9. Activities should not interfere with regularly scheduled classes. This limitation often requires conducting such activities beyond the regular school day, if possible.
10. Activities at any level should be unique, not duplications of others already in operation.
11. Students participating in cocurricular and extracurricular activities are expected to demonstrate responsible behavior and good conduct. The Board encourages the development and promotion of sportsmanship in all phases of the educational process, including athletics and all other cocurricular and extracurricular activities.
12. Students suspended and expelled from school are banned from extracurricular activities. Students may also be suspended from extracurricular activities for violations of the student code of conduct or the code of conduct of the particular activity in which they participate. Students absent from school are not permitted to participate in extracurricular activities on that date.
13. Annually, the Board directs the Superintendent/designee to identify supplemental contract positions that supervise, direct or coach a student activity program that involves athletic, routine/regular physical activity or health and safety considerations. Upon the identification of the position, the individual must complete the requirements established by the Ohio Department of Education and State law.
14. Students may be expelled for up to one year for firearm-related or knife-related incidents occurring off school property while at an interscholastic competition, extracurricular event or other school-sponsored activity.
15. Students may be removed from extracurricular activities when their presence poses a continuing danger to persons or property or an ongoing threat of disruption. If a student is removed from extracurricular activities, such removal may include all extracurricular activities in which the student is involved.

16. Resident students enrolled in community schools are permitted to participate in the District's extracurricular activities, including interscholastic athletics at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.
17. Resident students attending **STEM and STEAM** schools are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.
18. Resident students attending a nonpublic school are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned if the nonpublic school the student is enrolled in does not offer the extracurricular activity. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.
19. Resident students receiving home instruction in accordance with State law are permitted to participate in the District's extracurricular activities, including interscholastic athletics, at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.

HB 59, effective September 29, 2013, requires districts to allow resident students who are receiving home instruction to participate in extracurricular activities at the school to which they would be assigned. Districts are also required to allow resident students attending a chartered or non-chartered nonpublic school to participate in extracurricular activities in the school to which the student would be assigned if the activity is one that the nonpublic school they are enrolled in does not offer. Students participating under these provisions must be of the appropriate grade and age level as determined by the superintendent and must meet the same academic, nonacademic and financial requirements as any other student. Districts are prohibited from imposing additional rules or fees on a student participating under these provisions that are not applied to other students participating in the same program.

Students still must meet the district eligibility requirements.*

*Districts may allow nonpublic, community, and STEM **and STEAM** school students who are not eligible to enroll in the district the opportunity to participate in an extracurricular activity operated by a school of the district if the activity is one the school the student is enrolled in does not offer, and the activity is not interscholastic athletics or interscholastic competitions in music, drama or forensics. The superintendent may also allow a homeschool student not eligible to enroll in the district to participate in an extracurricular activity offered by one of the schools if it is an activity the district in which they are eligible to enroll does not offer.*

SB 3 (2016) also allows the superintendent to allow a nonresident student attending a nonpublic school located in the district the ability to participate in an activity that is interscholastic athletics or interscholastic competitions in music, drama or forensics provided certain criteria are met.

School districts must count – up to 24 hours per school year as excused absences – time that a student is absent from school for the sole purpose of traveling out of state to participate in a board-approved enrichment activity or an extracurricular activity. The student is required to make up all missed classroom assignments.

In addition, if the student will be out of the state for 24 or more consecutive school hours for a board-approved enrichment or extracurricular activity, a classroom teacher employed by the board must accompany the student to provide instructional assistance.

INTERSCHOLASTIC ATHLETICS

Participation by students in athletic competition is a privilege subject to Board policies and regulations. While the Board takes great pride in winning, it emphasizes and requires good sportsmanship and a positive mental attitude as prerequisites to participation.

The Superintendent and administrative staff schedule frequent conferences with all physical education instructors, coaches and athletic directors to develop a constructive approach to physical education and athletics throughout the District and to maintain a program that is an educational activity.

Interscholastic athletic programs are subject to approval by the Board. The building principal is responsible for the administration of the interscholastic athletic program within his/her school. In discharging this responsibility, the principal consults with the athletic directors, coaches and physical education instructors on various aspects of the interscholastic athletic program. It is the responsibility of the principal and his/her staff to ensure the proper management of all athletic and physical education programs and the safety of students and the public.

The Board may require that students pay reasonable fees to participate in interscholastic athletics.

Coaches are required to complete all approved course work as specified by State law, the Ohio High School Athletic Association (OHSAA) and the Ohio Department of Education in order to qualify to serve as coaches.

In the conduct of interscholastic athletic programs, the rules, regulations and limitations outlined by the OHSAA and State law must be followed. It is the responsibility of the District's voting delegate to OHSAA to advise the management team of all pending changes in OHSAA's regulations.

Eligibility requirements for participating in athletic programs must conform to regulations of the OHSAA. They include the requirements that a student have the written permission of his/her parent(s) and shall have been determined as physically fit for the chosen sport by a licensed physician.

All students participating in interscholastic athletics must be covered by insurance. This insurance may be available for purchase through the District. If parents choose not to purchase insurance provided by the District, the parent(s) must sign a waiver ensuring that private coverage is provided.

As character building is one of the major objectives of interscholastic athletics, the athlete assumes responsibility for regulating his/her personal life in such ways as to make him/her a worthy representative of his/her school.

Any student may be suspended from an athletic team practice and competition for a period of time, designated by the principal, for infractions of school rules and regulations or for any other unacceptable conduct in or out of school.

Students in grades 9-12 are ineligible for athletics for the first 50% of the maximum allowable regular season contests in the sports the student participated in during the 12 months immediately preceding the transfer, until the one-year anniversary date of enrollment in the school the student transferred to. If the transfer takes place during the sport season in which a student has participated in a regular season interscholastic contest, the student is ineligible for the remainder of that sport's season. Exceptions to the ineligibility provisions are outlined in the OHSAA Bylaws.

Resident students enrolled in community schools are permitted to participate in the District's interscholastic athletics program at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.

Resident students attending **STEM and STEAM** schools are permitted to participate in the District's interscholastic athletics program at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent, and must fulfill the same academic, nonacademic and financial requirements as any other participant.

Resident students attending a nonpublic school are permitted to participate in the District's interscholastic athletic programs at the school to which the student would be assigned if the nonpublic school the student is enrolled in does not offer the activity. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.

Resident students receiving home instruction in accordance with State law are permitted to participate in the District's interscholastic athletic programs at the school to which the student would be assigned. Students must be of the appropriate age and grade level as determined by the Superintendent and must fulfill the same academic, nonacademic and financial requirements as any other participant.

Foreign exchange students enrolled in a recognized visitor exchange program may be eligible to participate in interscholastic athletics in accordance with OHSAA Bylaws.

HB 49 (2017) revised language in RC 3313.5310 requiring a student wishing to participate in athletics to submit a form signed by the student and parent stating that both have received and reviewed a copy of the sudden cardiac arrest guidelines. The change requires the form to be submitted once annually, rather than each school year for every athletic activity in which the student participates.

Concussion Management

HB 143 (effective April 23, 2012) added requirements to State law for concussion management in athletics. The specific requirements are outlined in Section RC 3313.539. The law states that if districts are subject to the rules of an interscholastic athletic conference, they will be in compliance if the rules of the organization are substantially similar to that of State law. Districts who are part of the Ohio High School Athletic Association (OHSAA) should already be implementing procedures that are similar to what is now in State law. If your district is not a member of OHSAA, or has sports that are not recognized as OHSAA sports, check with your regulatory organization to ensure compliance with State law.”

OHSAA has already made a concerted effort to provide educational resources to member schools on concussion management. This information is outlined in the OHSAA Bylaws and sports regulations.

Specifically, OHSAA has adopted the following sports regulation:

“Any athlete who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from the contest and shall not return to play until cleared with written authorization by an appropriate health care professional.” HB 487 (2014) amended the requirements for who can clear a student to return to practice or play, after the student was removed for exhibiting signs or symptoms of a concussion. The requirements are outlined in RC 3313.539.

OHSAA has further defined parameters to guide OHSAA licensed officials, medical personnel and member schools in implementing these guidelines. Information is provided by OHSAA on recognizing signs and symptoms consistent with a concussion. Specific guidelines and expectations for coaches, officials, and students for concussion management are outlined in the OHSAA general sports regulations. Details are additionally outlined in these regulations for when athletes can be returned to play and who is able to decide whether a student is fit to return to practice or competition.

HB 143 amended the requirements for the issuing or renewal of a pupil-activity program permit to coach interscholastic athletics. These permits are issued by the Ohio Department of Education. To receive a first time permit, each individual must successfully complete a training program that is specifically focused on brain trauma and brain injury management. To renew a permit, individuals must present evidence that they have successfully completed a training program in recognizing the symptoms of concussions and head injuries within the previous three years.

OHSAA has a Web page dedicated to sports safety, which includes links to concussion resources. Visit <http://www.ohsaa.org/sportssafety> for more information.

Requirements for coverage by insurance and for physical examinations might be part of such a policy or these could be dealt with under Student Insurance Program and Physical Examinations of Students and cross-referenced from this page. Another source of information would be the student handbook.

Summer School

Summer school credits are accepted toward graduation, provided that administrative approval has been given prior to registration for the course.

Educational Options

High school credit is awarded to students who successfully complete Board-approved educational options that count toward the graduation requirements and subject area requirements.

College Credit Plus and Postsecondary Enrollment Options

Credit is awarded for courses successfully completed at an accredited postsecondary institution. High school credit awarded for a course successfully completed under College Credit Plus, or where applicable the former Postsecondary Enrollment Options Program, counts toward the graduation requirements and subject area requirements of the District. If a course comparable to the course successfully completed is offered by the District, then comparable credit for the completed equivalent course is awarded. If no comparable course is offered, the District grants to the student an appropriate number of credits in a similar subject area.

Correspondence Courses

High school courses offered through correspondence courses are accepted for credit toward graduation only when they meet the following criteria.

1. Credits earned in correspondence schools directly affiliated with state universities are evaluated by the school administration for students who wish to qualify for graduation from high school.
2. Credits earned from correspondence schools not directly affiliated with an accredited college or university may not be applied toward graduation.
3. Credits earned from schools that have been established primarily for correspondence study, rather than an institution primarily for residence study, are not accepted toward graduation.

Course Work Prior to Ninth Grade

Student work successfully completed prior to the ninth grade is applied towards graduation credit if the course is taught by a teacher holding a license valid for teaching high school and is designated by the Board as meeting the high school curriculum requirements.

Physical Education Exemption

A student who, during high school, has participated in interscholastic athletics, marching band or cheerleading for at least two full seasons is not required to complete any physical education courses as a condition to graduate. However, the student is required to complete one-half unit, consisting of at least 60 hours of instruction, in another course of study.

Junior Reserve Officer Training Corps (JROTC) Exemption

A student who has participated in JROTC for at least two full school years is not required to complete any physical education courses as a condition to graduate. In addition, the academic credit received from participating in JROTC may be used to satisfy the one-half unit of Physical Education and completion of another course is not necessary for graduation.

Community Service

The District offers community service education, which acquaints students with the history and importance of volunteer service and with a wide range of existing community needs. Community service opportunities may be considered an elective towards graduation.

Graduation Requirements Opt Out

The District offers students entering the ninth grade on or after July 1, 2010, and before July 1, 2016, the ability to opt out of the graduation requirements in compliance with Board policy and regulations and all procedural requirements stipulated by the school.

District requirements should be reflected in the district minimum column.

Senate Bill (SB) 311, passed in 2006, permits boards to adopt a policy that excuses from high school physical education those students who have participated in interscholastic athletics, cheerleading or marching band for at least two full seasons. However, excused (exempted) students must complete one-half unit of at least 60 hours of instruction in another course of study in order to graduate from high school.

House Bill (HB) 290, passed in 2009, adds participation in Junior Reserve Officer Training Corps (JROTC) programs approved by the United States Congress to the list of permitted electives within the Ohio Core curriculum. Boards may also excuse (exempt) participating students from high school physical education courses if participation in JROTC is for at least two full years.

In addition, under HB 290, boards are permitted to grant high school credit for two full years of participation in JROTC without the student having to take another course of study in order to graduate from high school.

HB 487 in 2014 sets forth three diploma pathways in addition to the regular curriculum requirements. These diploma pathways appear in RC 3313.618, and apply to students entering ninth grade for the first time on or after July 1, 2014. In order to qualify for a high school diploma, eligible students must satisfy at least one of the following conditions: 1) be remediation-free on each of the nationally standardized assessments in English, mathematics and reading; 2) attain a cumulative score of 18 points on the seven end-of-course examinations or 3) attain a score that demonstrates workforce readiness and employability on a nationally recognized job skills assessment and obtain either an industry-recognized credential or license issued by a state agency or board for practice in a vocation that requires an examination for issuance of that license.

HB 64 required the State Board of Education (SBOE) to adopt new rules permitting students who began ninth grade before July 1, 2014 who are subject to the Ohio Graduation Test requirements, graduation choices that incorporate these new graduation options. The SBOE adopted Ohio Administrative Code 3301-16-05, effective January 1, outlining additional assessment options for these students.

TRUANCY

The Board endeavors to reduce truancy through cooperation with parents, diligence in investigating the causes of absence and use of strict guidelines in regard to tardiness and unexcused absence.

When the Board determines that a student has been truant and that the parent, guardian or other person having care of a child has failed to ensure the child's attendance at school, State law authorizes the Board to require the parent to attend a specified educational program.

This program has been established according to the rules adopted by the State Board of Education for the purpose of encouraging parental involvement in compelling the child's attendance at school.

On the request of the Superintendent, or when it comes to the attention of the school attendance officer or other appropriate officer of the District, the designated officer must investigate any case of supposed truancy within the District and must warn the child, if found truant, and the child's parent in writing of the legal consequences of being a "habitual" truant.

A "habitual truant" is any child of compulsory school age who is absent without a legitimate excuse for 30 or more consecutive hours, 42 or more hours in one month or 72 or more hours in a school year.

The parent is required to have the child attend school immediately after notification. If the parent fails to get the child to attend school, the attendance officer or other appropriate officer, if directed by the Superintendent or the Board, must send notice requiring the child's parent to attend a parental education program.

Regarding "habitual truants," the Board must take as an intervention strategy any appropriate action contained in Board policy.

The Board directs the administration to develop intervention strategies that include all of the following actions if applicable:

1. providing a truancy intervention plan meeting State law requirements for any student who is excessively absent from school;
2. providing counseling for a habitual truant;
3. requesting or requiring a parent having control of a habitual truant to attend parental involvement programs;
4. requesting or requiring a parent of a habitual truant to attend truancy prevention mediation programs;

5. notification to the registrar of motor vehicles or
6. taking appropriate legal action.

The attendance officer provides notice to the parent of a student who is absent **with or** without excuse for 38 or more hours in one school month or 65 or more hours in a school year within seven days after the date of the absence triggering the notice. At the time of notice, the District may take any appropriate action as outlined in this policy as an intervention strategy.

Absence Intervention Plan

Beginning with the 2017-2018 school year, when a student's absences surpass the threshold for a habitual truant, the principal or the Superintendent assigns the student to an absence intervention team within 10 days of the triggering event. The absence intervention team must be developed within seven school days of the triggering event and is based on the needs of the individual student. The team must include a representative from the student's school or District, a representative from the student's school or District who knows the student and the student's parent or their designee, and also may include a school psychologist, counselor, social worker or representative of an agency designed to assist students and their families in reducing absences. During the seven days while developing the team, the Superintendent or principal makes at least three meaningful, good faith attempts to secure participation of the student's parent. If the student's parent is unresponsive the District investigates whether the failure to respond triggers mandatory reporting to the appropriate children's services agency and instructs the absence team to develop the intervention plan without the parent.

Within 14 school days after a student is assigned to a team, the team develops a student specific intervention plan to work to reduce or eliminate further absences. The plan includes, at minimum a statement the District will file a complaint in juvenile court not later than 61 days after the date the plan is implemented if the student refuses to participate or fails to make satisfactory progress. The District makes reasonable efforts to provide the student's parent with written notice of the plan within seven days of development.

The absence intervention plan for a student may include contacting the juvenile court to have a student informally enrolled in an alternative to adjudication. The Board directs the Superintendent to develop written procedures regarding the use of and selection process for offering these alternatives to ensure fairness.

If the student becomes habitually truant within 21 school days prior to the last day of instruction of a school year, the District may either assign a school official to work with the student's parent to develop an intervention plan during the summer and implement the plan no later than seven days prior to the first day of instruction of the next school year, or reconvene the absence intervention process on the first day of instruction of the next school year.

Filing a Complaint with Juvenile Court

Beginning with the 2017-2018 school year, the attendance officer must file a complaint against the student in juvenile court on the 61st day after implementation of the absence intervention plan when:

1. the student's absences have surpassed the threshold for a habitual truant;
2. the District has made meaningful attempts to re-engage the student through the absence intervention plan, other intervention strategies and any offered alternatives to adjudication and
3. the student has refused to participate in or failed to make satisfactory progress on the plan or any offered intervention strategies or alternatives to adjudication as determined by the absence intervention team.

If the 61st day after intervention falls on a day during the summer months, the District may extend the implementation of the plan and delay the filing of the complaint for an additional 30 days after the first day of instruction of the next school year.

Unless the absence intervention team determines the student has made substantial progress on their absence intervention plan, the attendance officer must file a complaint against the student in juvenile court if the student is absent without legitimate excuse for 30 or more consecutive hours or 42 or more hours during a school month at any time during the implementation phase of the intervention plan or other intervention strategy.

NOTE: House Bill 410 (2016) made significant changes to district requirements for managing truancy effective with the 2017-2018 school year. When developing truancy policies, districts are required to consult with the judge of the juvenile court of the county or counties in which the district is located, parents, guardians, or other persons having care of the students attending school in the district and appropriate state and local agencies.

Districts with a chronic absenteeism rate of less than 5% as reflected on the most recent state report card are exempt from the requirement to assign students to an absence intervention team and instead must take any appropriate action as an intervention strategy outlined in board policy.

RELEASED TIME FOR RELIGIOUS INSTRUCTION

The Board permits students to be released from school for religious instruction consistent with law. Absence during the school day for religious instruction is permitted, provided:

1. the student's parents or guardians submit a written request to the building principal;
2. the private entity providing instruction maintains attendance records and makes them available to the District and
3. the student is not absent from core curriculum subject courses.

The District is not responsible for transportation to and from the place of instruction. Regular classroom instruction missed as a result of a student's absence for religious instruction will not be made up and students assume responsibility for any missed schoolwork. Students are not considered absent from school while attending a released time course in religious instruction. The District does not aid, assist or enforce attendance in a religious instruction program. The District does not discriminate against students who participate in such program.

~~Individuals providing religious instruction are not permitted to promote student participation by directly contacting students on school premises or by encouraging students in the program to recruit their friends. All promotional activities for such instruction must be conducted off school grounds.~~

No public funds are expended and no public school personnel are involved in providing religious instruction. This policy is not intended and shall not be construed in any way, to associate the District with any faith or religious denomination.

The decision to award credit for a released time course of religious instruction must be neutral to, and cannot involve any test for religious content or denominational affiliation. Districts should work with board counsel to implement such programs.

PROGRAMS FOR STUDENTS WHO ARE GIFTED

In accordance with the belief that all students are entitled to education commensurate with their particular needs, students in the District who are gifted are provided opportunities to progress as their abilities permit. The Board believes that these students require services beyond those offered in regular school programs in order to realize their potential contribution to themselves and society.

Students who are gifted are identified annually by qualified professionals using a variety of assessment procedures. The Board encourages efforts to provide services for students who are gifted as an integral part of the total kindergarten through grade 12 program.

Identification

The District follows the identification eligibility criteria as specified in State law.

1. The District identifies students of the District, in grades kindergarten through 12, as students who are gifted who perform at remarkably high levels of accomplishment when compared to other students of the same age, experience and environment, as identified under State law. Accordingly, a student can be identified as exhibiting:
 - A. superior cognitive ability;
 - B. specific academic ability in one or more of the following content areas:
 - 1) mathematics;
 - 2) science;
 - 3) reading, writing or a combination of these skills and/or
 - 4) social studies;
 - C. creative thinking ability and/or
 - D. visual or performing arts ability such as drawing, painting, sculpting, music, dance or drama.
2. The District uses only those instruments approved by the Ohio Department of Education (ODE) for screening, assessment and identification of students who are gifted.
3. A student identified as gifted in accordance with State law remains identified as gifted regardless of subsequent testing or classroom performance.

District Plan for Identifying Students Who are Gifted

The Board adopts and submits to ODE a plan for identifying students who are gifted. Any revisions to the District plan are submitted to ODE for approval. A copy of this policy is provided at time of submission. The identification plan includes the following:

1. the criteria and methods the District uses to screen and select students for further assessment who perform or show potential for performing at remarkably high levels of accomplishment in one of the gifted areas;
2. a description of assessment instruments selected from the ODE-approved list to be used for the screening and identification of students who are gifted;
3. procedures for the provision of at least two whole grade screening opportunities to be administered for all students once prior to the end of second grade, and once for all students between grades three and six;
4. the sources of assessment data the District uses to select students for further testing and an explanation to parents/guardians of the multiple assessment instruments required to identify students who are gifted;
5. an explanation for parents/guardians of the methods the District uses to ensure equal access to screening and further assessment for all District students, including minority and disadvantaged students, students with disabilities and English learner students;
6. the process of notifying parents/guardians regarding all policies and procedures concerning the screening, assessment and identification of students, who are gifted, including the requirement to notify parents within 30 days of the District's receipt of a student's result on any screening procedure or assessment instrument;
7. an opportunity for parents/guardians to appeal any decision about the results of any screening procedure or assessment, the scheduling of students for assessment or the placement of a student in any program or for receipt of services;
8. procedures for the assessment of students who transfer into the District no later than 90 days after the transfer at request of the parent;
9. at least two opportunities a year for assessment in the case of students requesting assessment or recommended for assessment by teachers, parents or other students with the initial assessment to be completed no later than 90 days of referral regardless of the grade levels where gifted services are offered and
10. an explanation that the District accepts scores on assessment instruments approved for use by ODE that are provided by other school districts and trained personnel outside the District.

The District's plan may provide for the District to contract with any qualified public or private service provider to provide screening or assessment services under the plan. Gifted education coordinators provide the District with assistance in placing students, designing services, consulting on strategic planning, evaluating services on an ongoing basis and eliciting input from parents and staff.

District Plan for Services

The District adopts and submits to ODE a plan for a continuum of services that may be offered to students who are gifted.

1. The District ensures equal opportunity for all students identified as gifted to receive any or all services offered by the District.
2. The District implements a procedure for withdrawal of students from District gifted programs or services, for reassessment of students and assessment of students transferring into the District.
3. The District implements a procedure for resolving disputes with regard to identification and placement decisions.
4. Any District gifted education services are delivered in accordance with State law.
5. The District informs parents of the contents of this policy as required by State law.

The services likely to be provided to a student based on the nature of their identification are:
(Insert a detailed list of services likely to be provided by the District)

The gifted services currently available within the District and the criteria for receiving these services are: *(Insert a detailed District specific list of services currently available and criteria for receiving the services)*

Written Education Plan

The District provides gifted services based on the student's areas(s) of identification and individual needs and is guided by a written education plan (WEP) developed in collaboration with an educator who holds a licensure or endorsement in gifted education. The District provides parents with periodic reports regarding the student's progress toward meeting goals and the effectiveness of the services provided in accordance with the WEP.

The WEP is provided to parents of gifted students and educators responsible for providing gifted education services and includes:

1. a description of the services provided, including goals for the student in each service specified, including but not limited to measurable academic goals;
2. methods and performance measurements for evaluating progress toward achieving the goals specified;
3. methods and schedule for reporting progress to students and parents;
4. staff members responsible for ensuring that specified services are delivered;
5. policies regarding the waiver of assignments and the scheduling of tests missed while a student is participating in any gifted services provided outside the general education classroom and
6. a date by which the WEP will be reviewed for possible revision.

At the commencement of services, and each year in which a student receives services, the District makes a reasonable attempt, in writing to obtain a parent/guardian signature on the WEP. A student will not be denied services due to lack of a parent/guardian signature.

The District will develop and disseminate a “no services” letter to parents/guardians of students identified as gifted but not receiving gifted services clearly communicating the student is not receiving gifted services. The letter may include a list of enrichment opportunities provided to the student by the District.

Gifted Education Personnel

Gifted education instruction is provided by gifted education intervention specialists by grade level in accordance with the Ohio Administrative Code (OAC). Gifted education instruction is offered during the regular school day and may be provided in large or small groups and/or individually in a variety of settings. The depth, breadth and pace of instruction based on the appropriate content areas may be differentiated. Where a general education teacher is designated as the provider of gifted services, the teacher meets the requirements of OAC including the requirements to receive professional development and ongoing assistance from a gifted education intervention specialist or gifted education coordinator.

Annual Report and Accountability

The District submits, as required, a gifted education annual report to ODE.

The District submits, as required, a gifted education data audit to ODE.

The Superintendent/designee implements all policies and procedures in accordance with laws, rules and regulations and follows the OAC rules regarding gifted education.

NOTE: New rules for identifying and serving students who are gifted become effective July 1, 2017, as outlined in Ohio Administrative Code 3301-51-15. The rules require each board to adopt a policy on gifted identification and submit this policy to the Ohio Department of Education with the gifted identification plan. The rules now require the policy to include a detailed list of the services likely to be provided to a student, based on the nature of a student's identification, and of all gifted services that are currently available within the school district including the criteria for receiving those services. This policy must be updated to include your detailed, district specific lists prior to adoption. For assistance developing the lists, districts should refer to Ohio Revised Code 3324.07 and OAC 3301-51-15. The policy will need to be reviewed on a regular basis to ensure it is reflective of current offerings and criteria.
