

Garfield Heights English 11 Accelerated Summer Reading Assignment

Welcome to the English 11 Accelerated class; we are going to have a great year. This course will be a bit more in depth than a general level English class. It will afford us opportunities to explore a variety American literature as well as the impact it has had on us as a culture. This course does, however, require more responsibility on the part of the student. Summer reading is the first step of that additional responsibility.

- Your text for summer reading is “Fahrenheit 451” by Ray Bradbury. I, Mr. Pavelek, will assign you a school copy that needs to be returned in the fall. Please make sure you see me & get a book!
- Use code **adfo2** to join my Google Classroom. There will be announcements and possibly assignments during the summer so be sure to join ASAP. Sign in to google using your @ghbulldogs.org account and then find Google Classroom. If you need help, see Mr. Pavelek before the end of the year.
- The summer reading project will be the first grade in your English class. The project will count as roughly 10-15% of your first quarter grade. Also, you will be working with the book during the first few weeks of class.

Have a great summer & enjoy Fahrenheit 451! I'll see you in August!

--Mr. Pavelek
