

# Things you need to know about Google Meet and Zoom!

Your teachers will be meeting with you on Google Meet or Zoom everyday during your scheduled class periods. With that in mind, there are a few things you need to know.

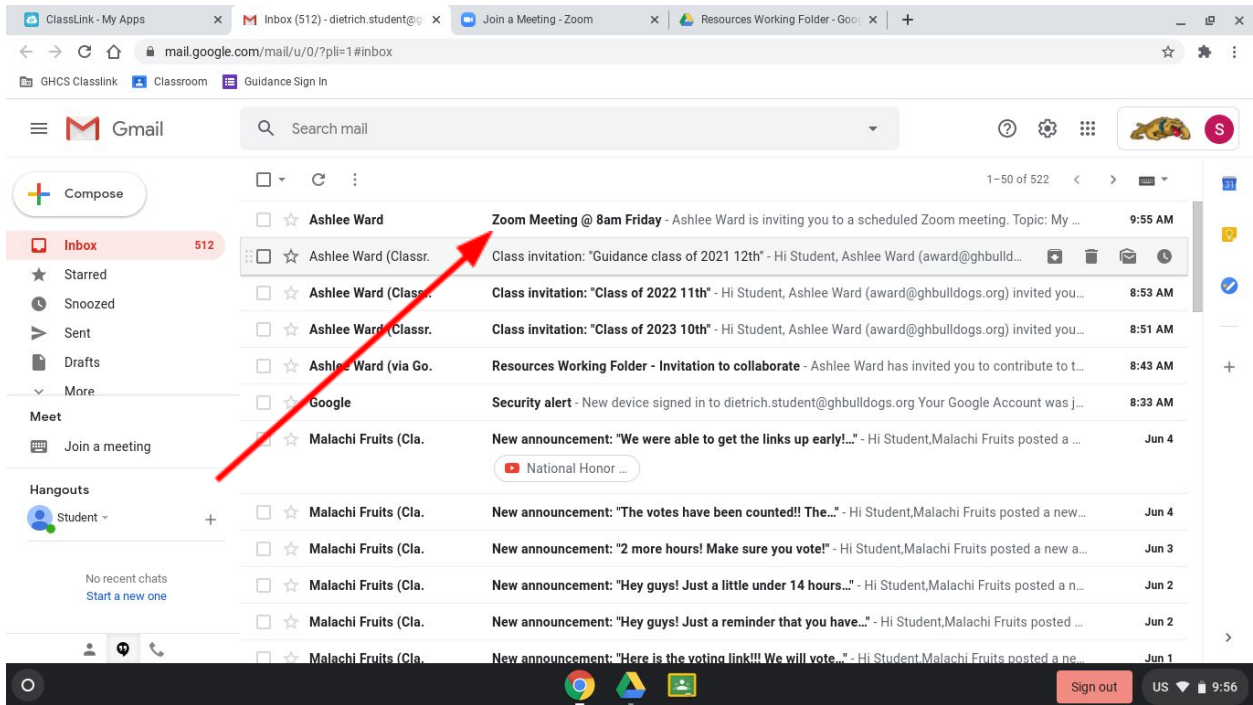

The most common place teachers will be posting a link to their Google Meet or Zoom meeting will be in your Google Classroom. (If you do not know how to get into Google Classroom view that handout first!) Your teachers will either be posting a link to the Zoom or Google Meet in the Classroom Stream, or activating the Meeting Room feature in Classroom.

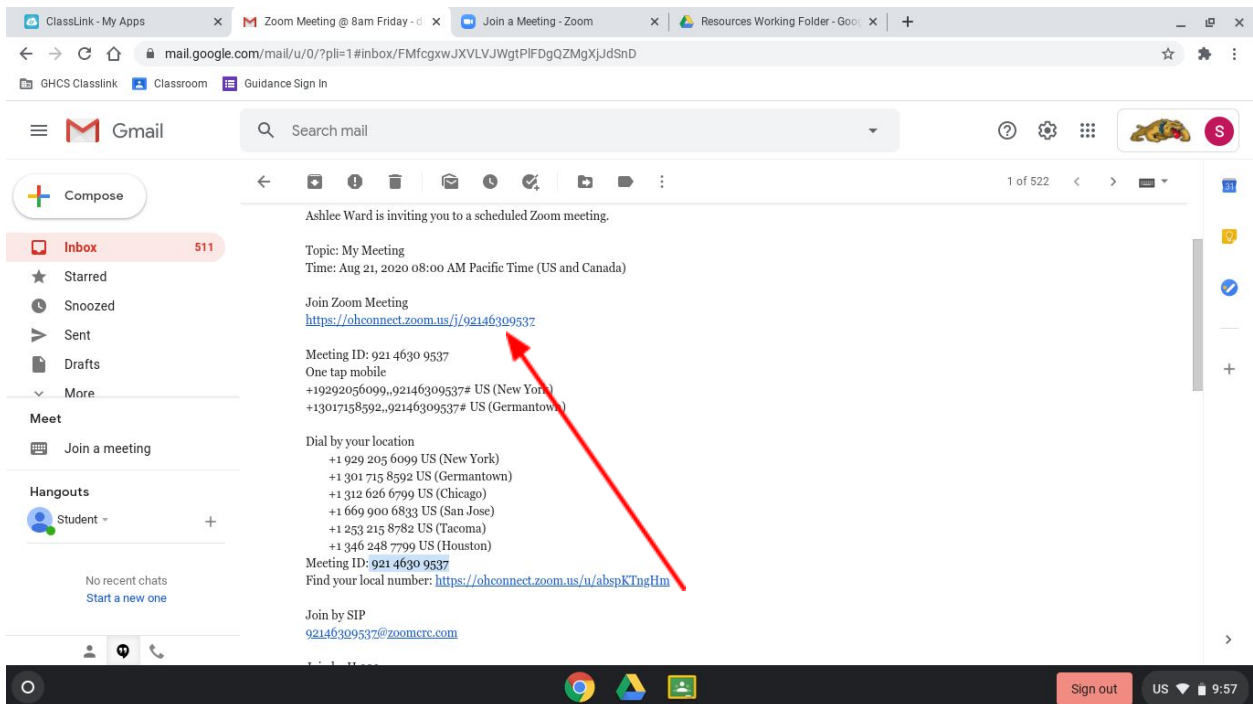

Your teacher might also post a link in their Google Classroom to either a Zoom or Google Meet.

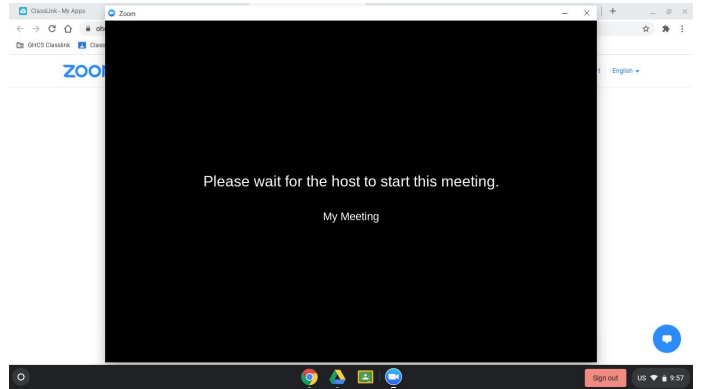

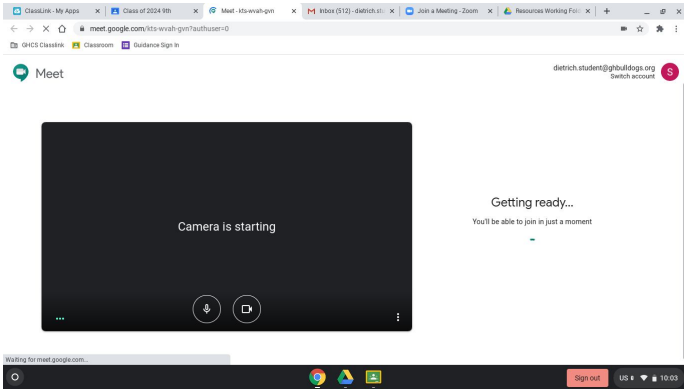

Or, your teacher might send you an email.

Make sure you open the email to find the link!

You will get a screen saying that your meeting is getting ready to begin.

Each program's getting ready screen looks a little different!

Make sure that when you are using Zoom or Google Meet you are dressed appropriately and in a space that you are comfortable other people see! Remember to smile!
